

MINUTES OF A SPECIAL MEETING OF
THE UNIVERSITY SENATE - 5/26/67

The University Senate met in Special Session at 2:10 p.m., May 26, 1967, Dean Bright presiding.

Professor Wood, seconded by Professor Stromson, moved the following special order of business, which was unanimously passed.

1. Motion to adopt Special Order of Business
2. Introduction of "A Resolution to Alter the University Calendar" by the Chairman of the Committee on Administrative Matters as They Affect the Faculty.
3. Report by the President of the Student Council.
4. Reports from the Schools and Colleges
 - a. Columbian College of Arts and Sciences
 - b. Graduate Council
 - c. School of Medicine
 - d. National Law Center
 - e. School of Engineering and Applied Science
 - f. School of Education
 - g. School of Government and Business Administration
 - h. School of Public and International Affairs
5. Reports for Officers of Administration
6. Statements from Faculty and Students. This period is not to exceed 30 minutes unless extended by majority vote of the Senate.
7. Debate, amendments, and motions on the Resolution
8. Adjournment

Professor Sharpe, Chairman of the Committee on Administrative Matters, explained the faculty version of possible calendar changes which had been circulated among all the faculty and moved the adoption of Resolution 66/25, A RESOLUTION TO ALTER THE UNIVERSITY CALENDAR, attached to it, seconded by Professor Kenny and general discussion ensued.

Mr. Robin Kaye, President of the Student Council, presented A REPORT ON PROPOSED REVISION OF THE UNIVERSITY CALENDAR which explained the Modified Semester Plan advanced by the student committee and ratified by the student body 1176 to 114. Mr. Kaye stated that further close study by its committee had revealed obstacles to its plan which required further study in depth and he therefore requested that the entire question be resubmitted by the Senate to its committee so that the differences between the student version and the Senate version could be worked out. Professor Lewis, seconded by Professor Perros, then moved that the Sharpe motion be tabled to allow the student body to study it. The motion failed to carry on a vote of 11 nayes to 8 ayes.

Professor Reesing, on behalf of Columbian College of Arts and Sciences, stated the college faculty had met and no final attitude toward this particular plan was defined. The general attitude was negative on academic rather than administrative grounds. Professor Reesing stated that the Columbian College had unanimously voted that someone in the Senate should move that decision be deferred until the Senate's Committee on Educational Policy had time to

study it more carefully. Speaking exclusively on his own behalf, Professor Reesing said he had reversed his own personal opinion, meanwhile, from positive to negative as he felt the plan would not accomplish the purposes he had in mind, which were to promote greater relaxation in the educational processes, i.e.: grading would not need to be done so fast; some sort of reading period would be established to allow the students to "bring things together" to avoid the "lame duck" period after Christmas; and provision would be made to allow a little more time for final examinations. Professor Reesing then moved that decision on the Sharpe motion be postponed for further study. The presiding officer requested that the motion be withheld until the other schools had an opportunity to report. Upon reassurance from the Chair that he would be given an opportunity later in the meeting to introduce it, Professor Reesing agreed to defer the introduction of the motion.

On behalf of the Graduate School of Arts and Sciences, Professor Desmond reported that School's opposition to the motion. On behalf of the School of Medicine, Professor Alpert reported all departments in that School opposed. On behalf of the School of Law, Professor Park reported the motion had been voted upon and resulted in fifteen in favor of tabling the motion, and two opposed. Professor Green had invited student opinion in the Law School on quarter and trimester sessions and all students polled were opposed. Professor Heller, on behalf of the School of Engineering and Applied Science reported that School definitely opposed to calendar changes by reason of their large graduate student body, problems of registration, etc. He felt that many basic questions needed answering before such changes are made. Professor St. Cyr, on behalf of the School of Education, reported its preference that the motion be tabled until a later time. Professor Lewis, on behalf of the School of Government and Business Administration, reported that no meeting had been held but an informal poll had revealed more against than in favor and many non-committal. Professor Hill, on behalf of the School of Public and International Affairs, reported a unanimous vote to retain the old calendar, and expressed its desire that the matter be recommitted for further study.

Mr. Ruth, Director of Admissions, reported his office completely opposed. Mr. Houser, Registrar, reported his office opposed for many reasons, chiefly that the proposal could not possibly be effective university-wide for varying reasons and would result in disruption of University processes. He questioned the validity of the vote the students had taken without appropriate study of the overall ramifications, and suggested that the Student Council do some work on polling various schools not covered in the vote, especially the Medical School.

Professor Lewis moved that the resolution be tabled, but this motion was not seconded.

Dean Cole, Summer Sessions, stated that his office has a great amount of material on trimester and quarterly sessions, and that they would be glad to confer with the Educational Policy Committee on the entire matter.

Dean Bissell, Director of Student Activities, opposed the resolution citing the numerous housekeeping arrangements in dormitories and changeovers in occupancy that would need replanning and rescheduling.

Professor Lewis, seconded by Professor Alpert then moved the previous question. By a 14 to 7 vote, the required two-thirds majority, the call for the previous question was passed and debate was terminated. Resolution 66/25 was then unanimously defeated.

The meeting was adjourned at 3 p.m.

Frederick R. Houser,
Secretary

INTERDEPARTMENTAL MEMORANDUM

May 5, 1967

From: University Senate Committee on Administrative Matters as They Affect the Faculty

To: The Faculty and Officers of the Administration

Subj: Altering the University Calendar

Encl: (1) Second special report on altering the University calendar
(2) Suggested University calendars, 1968-69 through 1972-73
(3) A Resolution to Alter the University Calendar

The University Senate Committee on Administrative Matters as They Affect the Faculty has recently studied proposals to modify the University calendar, placing the Fall semester between Labor Day and Christmas, advancing the Spring semester to end early in May, putting Commencement in mid-May, and leaving a somewhat longer and more flexible Summer period.

It appears to be barely possible to put an altered University calendar in effect for academic year 1968-69, provided the Faculty favors the proposal in principle and is willing to leave some of the details to the University Senate and to the Administration. Or the Faculty may prefer to delay or defeat the proposal as being defective in detail or unacceptable in principle.

The Chairman of the Executive Committee of the University Senate has called a special meeting of the Senate for 2:10 p.m. Friday, May 26, to debate the attached resolution which proposes modifying the University calendar, and the Executive Committee has approved sending this memorandum to the Faculty and officers of the Administration. The Administrative Matters Committee hopes that the faculties of the schools and colleges can meet to consider the calendar modification question both in principle and in detail as presented in the attached special report, so that the members of the Senate can be fully informed on the feasibility and desirability of calendar modification for the debate May 26.

THE GEORGE WASHINGTON UNIVERSITY SENATE
COMMITTEE ON ADMINISTRATIVE MATTERS AS THEY AFFECT THE FACULTY

Second Special Report on Altering the University Calendar

The Administrative Matters Committee's first report on possible alterations to the University calendar, presented April 14, 1967, recommended that the Committee further consider the specific proposal to advance the Fall and Spring semesters, so that the Christmas recess separates them, and report again to the Senate. This second report contains the Committee's suggested calendars for 1968-69 through 1972-73, with the following observations:

1. Total teaching days, both by semester (left margin) and by days of the week (foot of each column), are indicated. The proposed calendars seem to vary no more than they do at present, including the examination periods as the final week of each semester. If this premise is wrong or unacceptable, the Fall semesters, especially 1970 and 1971, may be too short.
2. The Fall semesters are all short; therefore Veterans Day (November 11) is not indicated as a holiday, and even the Friday after Thanksgiving has been omitted as a holiday in 1970 because Labor Day falls at its latest (September 7) that year. The Committee felt that the easiest solution, which would be to put Fall examinations immediately after Christmas recess, was not worth overhauling the calendar for. Likewise the Committee decided against beginning the Fall semester before Labor Day.
3. The Spring semester has a one-week recess at mid-semester, approximately the first full week in March. Easter is never closer than two full weeks away from then. A four-day weekend has been assigned as Easter recess every year. No Spring reading period as such appears in the calendars; the Senate may wish to reconsider this by shortening the Summer period.
4. The Summer period is longer than at present--long enough to insert a third semester if some school wants to try it. The Committee's intent, however, is to promote adaptability and experimentation in Summer scheduling, not to impose round-the-year operation by any means.
5. Commencement in mid-May falls on Sundays except in 1971, when a Wednesday is suggested in order to minimize cyclical variation.

Although its members do not unanimously support every detail of the suggested calendars, the Committee concludes that the modified semester plan is workable in principle. The question remains whether the cost in detail, particularly the frantic Fall semester, is justified by the primary benefit of ending the Fall semester before Christmas, together with significant benefits in a more leisurely Spring semester and the opportunity for better use of the Summer period.

Respectfully submitted
for the Committee:

David J. Sharpe, Chairman

May 5, 1967

A REPORT ON PROPOSED REVISION OF THE
UNIVERSITY CALENDAR

Be it Considered by the University Senate of this University

1. The modified Semester Committee of the Student Council recommends the adoption of a University Calencar based on the following principles:

- a. Fall Semester shall lie between September and Christmas.
- b. Thanksgiving Thur. and Fri. shall be observed as holidays.
- c. When possible 1 Friday in Oct. shall be declared a holiday with Fall weekend-Homecoming Actives said weekend.
- d. Spring Semester shall commence in mid-January and end early in May.
- e. A one week Spring recess shall normally be observed at Easter, accept at those times when Easter comes unusually late; then the 3rd week in March should be Spring recess with Good Fri. and Easter Monday being holidays.
- f. One Friday in April, when possible shall be declared a holiday for the purpose of Spring Weekend.
- g. Each Semester shall contain between 75 and 80 days.
- h. There shall be a minimun of 4 days devoted to review (Sunday included) with each professor or Department having the option to shorten the teaching schedule to include extra review days.
- i. Commencements shall take place at a time deemed appropriate by the Administration.
- j. The summer school schedule shall undergo serious evaluation with the consideration of slightly lengthening it and or changing the schedule.

2. The Committee regards as an administrative function the assignments of dates to the University calendar, within the principles set forth.

3. The Modified Semester Committee asks the Senate to resubmit the whole question of Modified Semester to Committee so that the differences between the student version and the Senate version may be worked out, and a greater indeapth study of all the ramifications of modified Semester be ascertained.

Advantages of modified Semester:

1. The merging of the Christman and Intersession breaks represents a savings to the student in both time and transportation cost.
2. The completion of finals before Christmas provides both the student and professor a real Christmas vacation and a time to be with their families in a far more relaxed atmosphere.
3. Administratively it eases the pressure on grading, and grade reporting, since under the student proposal grades and suspension notices have until Jan. 1st to be mailed to the students.
4. Provides for a longer reading period, with the new minimum being 4 days.
5. It would facilitate study abroad, by allowing students to attend the full summer Semester in Europe, which normally begins in May, while not disrupting the students regular four year program.
6. It would allow professors time to either study or teach abroad.
7. It would allow students to put the Christmas vacation to profitable advantage by securing longer vacation jobs (e.g. Post Office).
8. It would allow students to report for summer jobs earlier, thus in many cases facilitating job hunting.
9. The extended and flexible summer period provides opportunities for participating in summer symposia and research interval in the same summer session.
10. The Intersession break could in the future be easily expanded to provide time for a mini-semester of honors or specialized individual research and or courses

Data on Modified Semester

1. Students ratified the concept of Modified Semester 1176 to 114.
2. The following important Student Organizations have approved the concept, The University Hatcher, the Student Council, the Interfraternity Council, and the Old Men Executive Board, all of which are either vital to student life and/or which figure importantly in the functioning of the 1st few weeks of school.
3. Out of the 900 faculty members polled, 138 answered. 75-62% favored modified semester, 10 (7.2%) favored change but were against modified Semester, 49 (35.5%) were against any change, and 4 (2.8%) stated no opinion.
4. After the senate releases its final report on modified semester, the student committee plans to repoll the faculty, and to hold another referendum for the students in light of all the ramifications that the Senate report should deal with, and which were either not considered or unrealized by earlier action.
